## Our team will help you successfully transition from prison back into the community so you can regain your life and mental health.

.....  
The Re-Entry Intensive Care Coordination Team (RICCT) is with you before you're even released, gathering pertinent information and meeting with you to discuss how this intensive voluntary program can help you with:

- » Mental health care, therapy and medication
- » Housing, food and clothing
- » Transportation
- » Employment and interviewing skills
- » Individualized case management
- » Interviewing skills
- » Support networks and services
- » Government assistance

### YOUR TREATMENT TEAM

Once in Tulsa, your team — a **psychiatrist, nurse, therapist, case manager and recovery support specialist** — will identify your needs and any potential obstacles to a successful re-entry. They will assist you in developing goals, as well as support and guide you while you're achieving them. They will help you manage your time and encourage you to surround yourself with positive influences and support from friends, family and your team.

In addition, participation in Alcoholics Anonymous, Narcotics Anonymous, community programs and RICCT sponsored leisure activities will help you develop healthy habits.

### DRUG TESTING

Our goal is to decrease your chances of returning to prison. If we suspect that you are using drugs, we may require you to take a drug test.

### HOUSING, TRANSPORTATION & INCOME

We'll help you find transitional housing and transportation and overcome the barriers that often leave ex-felons unemployed. Together we will consider:

- » Employment strategies
- » Social Security benefits
- » Applications for food stamps

### PARTICIPANT RESPONSIBILITIES

- » Make and keep weekly appointments with your case manager, therapist and recovery support specialist
- » Attend all required group meetings
- » Keep all medical appointments
- » Take medications as they are prescribed
