**Meet Dr. Collins**  
Family & Children's Services

- » Dr. Collins served in the U.S. Navy before becoming a doctor.
- » He chose psychiatry because he cares deeply about supporting people's mental health.
- » He has special experience working with individuals with intellectual and developmental disabilities (IDD).
- » Most of his career has been in community hospitals and mental health centers helping people with serious mental health needs.
- » Dr. Collins is excited to meet Gateway Friends and families and working together to support health, hope, and meaningful lives.
